ON THE ROAD TO REBOUND

With the season starting off with injured players and slower momentum, the Cougars made their comeback.

JR Cross (10) said their season "hasn't gone exactly how we expected it to, but we're getting better." Despite differences between each player, one commonality teammates share is their drive to win.

At the beginning of the season, Nathan Walker (10) said, "I hope to go far in the playoffs."

Another teammate, Bryson Jenkins (10), said his goal was "to win championships and just to have a good season."

The boys finished out their

season with Luke Lindeman (12), one of the three seniors on the varsity team, coming back from recovering an ACL tear. Win or lose, the team admits how important it is to push each other to be better. Lindeman describes how he feels like "the best player in the world" when he makes a shot.

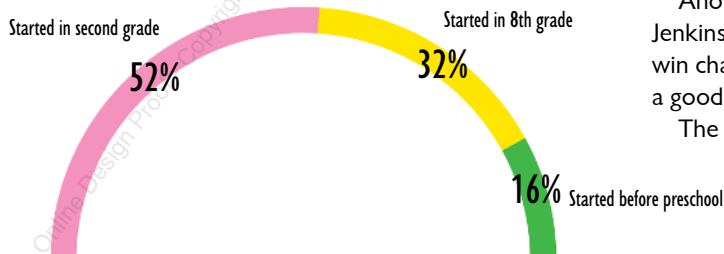

While Rey Kante (9) expressed how he feels confident when making a basket along with his most memorable moment was "hitting a buzzer beater at the end of the quarter in someone's face."

Despite the injuries in the beginning, the Cougars were able to finish strong as a team, with hopes to improve and succeeded.
